Brand Guidelines

REBRAND ANNOUNCEMENT |

For three decades, Dr. Blumer & Partner has helped clients preserve, manage and grow wealth through disciplined process, independent advice and a long-term perspective.

Today, we are proud to introduce our new identity: Tellian Capital.

This evolution reflects both our heritage and our future. While our name and visual identity have changed, our principles remain the same — quantitative precision, independent stewardship and a commitment to helping clients navigate complexity with clarity and confidence.

Rooted in Swiss values and shaped by a global perspective, Tellian Capital represents the next chapter in our journey.

Three decades of trust. A renewed identity for the future.

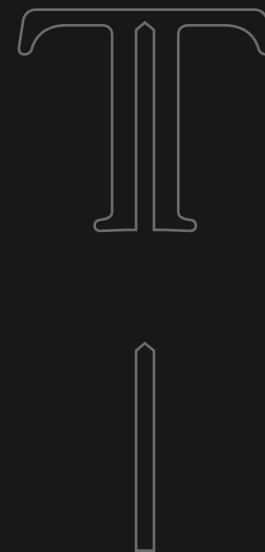

STATEMENT ABOUT THE NEW IDENTITY |

The Meaning Behind the Identity

Tellian Capital draws inspiration from William Tell, a timeless symbol of independence, precision and conviction.

At the centre of the identity is a custom monogram built around the letter T, subtly incorporating the form of an arrow within its structure. The arrow represents direction, purposeful movement and disciplined growth, while its integration within the monogram reflects the firm's belief that progress is achieved through precision rather than chance.

The identity balances heritage and modernity — referencing Tellian's Swiss roots while expressing a contemporary approach to wealth management founded on quantitative rigour, independent thinking and long-term stewardship.

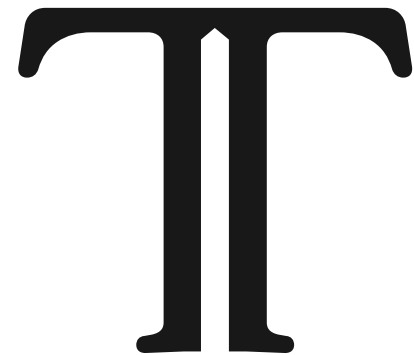

BRAND LOGO

The Tellian logo with a custom word mark and monogram is available in primary and secondary forms- providing adaptive usage across digital and print requirements

Do not skew, stretch, or morph the logo in any way. Use the provided open files and pngs to place contrasting logos on your assets

Do not resize separate elements of the logo

TYPOGRAPHY: FONT FOR BODY TEXT

Inter
Aa

Inter Thin

Manage your work with precision

Inter Regular

Manage your work with precision

Inter Semibold

Manage your work with precision

Inter, a font by Google Fonts is the brand body type. It should be used across paragraphs and for smaller text. Inter can be used in Thin, Regular or Semi-bold body weights to ensure readability and depending on the background colour

TYPOGRAPHY: FONT FOR TITLES AND PRINT

Lustria

Aa

Lustria Regular

Manage your work
with precision.
Chart a way forward
for client wealth

Lustria is a Google font available in one weight- and works very well as a display font for large statements and titles.

TYPOGRAPHY: FONT FOR WEB TITLES

Cormorant Garamond

Aa

Cormorant Garamond font is available as a replacement of Lustria- as it is available in multiple weights it can easily be used across Website and digital assets. It works very well in contrast to Inter as a body font.
